

Oleh Levchenko

SENIOR FULL STACK DEVELOPER — AWS & CLOUD INFRASTRUCTURE (NODE.JS / SERVERLESS / IAC)

United Kingdom | leva13007@gmail.com | 07552827084 | linkedin.com/in/oleh-lev | github.com/leva13007

SUMMARY

Senior Full Stack Developer with 9+ years of experience designing and running AWS cloud infrastructure and Node.js/TypeScript services — serverless architectures, infrastructure as code, and event-driven systems at scale. Experienced with AWS (Lambda, Step Functions, SQS/SNS, DynamoDB, ECS, Cognito), NestJS, GraphQL, microservices, CI/CD and automated testing. Strong in system design, technical decision-making, code review and mentoring developers (10+ mentored to date). Also explores AI-driven engineering, and hosts IT Friday, a weekly developer community.

CORE SKILLS

- **Cloud (AWS):** Lambda, ECS/Fargate, S3, CloudFront, API Gateway, Step Functions, SQS/SNS, DynamoDB, IAM, Cognito
- **Infrastructure as Code:** AWS SAM, CloudFormation, Terraform, AWS CLI
- **CI/CD:** AWS CodeBuild/CodePipeline, GitHub Actions, Docker
- **Backend:** Node.js, NestJS, TypeScript, GraphQL (Apollo), REST API design, microservices, SQL
- **Testing:** Jest, Vitest, integration & unit testing, Cypress, Playwright
- **Architecture:** Microservices/service-boundary design, event-driven/async processing (SQS-based), system design
- **AI-assisted development:** Claude Code (CLI), OpenAI Codex — agentic coding workflows, automation

EXPERIENCE

Full Stack Developer (backend/cloud-focused) — The AA (UK)

Aug 2022 – Present

Sales and support platform for AA Driving School, serving over 30k users; team of 3-6 full-stack developers.

- Design and build backend services in Node.js/TypeScript across a microservices architecture behind an API Gateway (NestJS) — Gateway owns auth/permissions/login, with dedicated Core (domain logic) and Address services
- Own AWS infrastructure end-to-end — Lambda, ECS/Fargate, S3, CloudFront, Step Functions, SQS/SNS, DynamoDB — with all infrastructure defined as code via AWS SAM/CloudFormation and the AWS CLI
- Use Lambda for a wide range of scheduled and event-driven workloads: financial/franchise data processing, document generation and delivery, static site generation, and mass email/SMS sends
- Use SQS extensively for asynchronous processing of payments, alerts, SMS and email notifications; use DynamoDB for applications that don't require a relational model
- Manage AWS Cognito for authentication and IAM for permissions across services; integrated a third-party payments/refunds provider and analytics platforms
- Contributed to CI/CD pipeline design (AWS CodeBuild/CodePipeline), and led migration of parts of the test pipeline to GitHub Actions for lower cost and better developer experience
- Leading research into migrating private npm packages to AWS CodeArtifact, currently rolling out across the team
- Led code review and drove cross-cutting architecture decisions, catching design and scalability issues

JavaScript Developer — DataArt

Jan 2021 – Aug 2022

- Built and maintained backend services (REST & GraphQL APIs) and complex frontend applications across enterprise client projects
- Worked on systems handling large datasets, with a focus on performance and reliability
- Collaborated in an Agile team, contributing to CI/CD workflows and release processes

Full Stack Developer → Web Team Lead — TopDevs

Jan 2019 – Jan 2021

- Built and maintained CRUD APIs and backend services using Node.js/Express, alongside earlier Laravel/PHP backend work
- Advocated for and drove Docker adoption across the team, containerising services to standardise local development and deployment
- Progressed to Web Team Lead — handling technical planning, estimation, and risk assessment for the department's projects

PHP Developer — S-PRO

Apr 2017 – Dec 2018

- Developed and maintained web applications and REST APIs using Laravel and WordPress
- Integrated third-party services and improved legacy systems architecture, introducing modular design practices
- Delivered multiple production systems, reducing manual processes for clients
